PROFILE

Greetings! Welcome to the ever-expanding world of CONEX - range of fasteners and precision metal components. CONEX METALS is the flagship company of CONEX GROUP, pioneers in the field of manufacturing and exports of fasteners and non-ferrous metal components

Commitment to quality makes CONEX a well - recognized name in local as well as international markets. We pride on offering cost effective solutions to the exacting demands of our customers. Thanks to professional management , precision engineering combined with skilled Indian workmanship, we have a strong presence in highly quality conscious markets of Europe and America.

Owing to the winning blend of quality, competitive pricing, excellent communication skills and prompt customer service, CONEX is growing at about 20 % per annum cumulatively.

MARKETS

Conex products are worldwide accepted for their quality and competitiveness. Presently we sell to OEMs, Importers, Distributors Agents and Resellers. The competitive edge in our pricing helps resellers to have decent markup and margins on sales. Aggressive pricing coupled with prompt deliveries ensures enough sales potential for everybody. For actual users and assemblers it offers substantial price advantage resulting in cost saving which in turn helps to make their own products competitive in the market place.

QUALITY

CONEX products are known for their high quality standards and excellent workmanship. We have been certified ISO 9001:2008 by reputed institution - BSI of UK. Over the decades we have made huge investments in inspection, testing and measuring instruments perfecting the art of supplying flawless fasteners and engineering components.

We have a full fledged Quality Assurance department with a team of highly skilled engineers working round the clock checking parts during and post production. A vast inventory of calibrated thread gauges in variety of threads ensures perfection from the basic production levels. We pledge to deliver quality precision metal parts, custom manufactured exactly according to customers' specifications every time. Each received order is individually reviewed for quality concerns and a quality plan is generated for maintaining quality parameters. Our aim is to ensure that quality of these products reflects your needs.

Our **Quality Policy** is- 'We are solemnly committed to delivery of defect-free, price competitive products promptly on time - every time to our valued buyers.'
